THE SAFEC STAND AT IFTF

REPORT ON IFTF – HOLLAND – EXHIBITION 2014 - JAC DUIF

We used a different flower arranger this year and they managed to build a tower of flowers, with each variety in a different layer on top of each other. It created a lot of interest and a lot of photos were taken. My feeling is that exhibiting varieties in different vases with names attached is a better option and requires less flowers, thus less costs, BUT IT WAS WORTH A TRY!

The exhibition was well supported by visitors, however, the number of enquiries received was a little disappointing. The printed list of SA flower exporters was a great help and successful. The interested persons were very happy with this list. Some took a list and just walked away without having a chance to talk to them.

Here is a list of business persons who showed interest in South African products:
